The Beginning

our story.

We started this journey back in 2019. With some small savings between us, a little machine from Alibaba, and the big dream of seeing our products in hands all over America. From formulation to packaging design, we've been involved in every step — mixing flavors in our kitchens, designing every label and box, hand-delivering samples, building our website, managing social media, and pitching to stores. Even today, we're still answering emails, overseeing production runs, and making sure every detail reflects the brand we've poured so much into.

We may be a small team, but we care deeply about what we're building — and we're just getting started. We're truly honored to be partnering with Favorite Brands, and we couldn't be more excited to have this incredible team alongside us for the next chapters of our story. With your support, we know we can make Hardpops a Texas favorite.

Thank you for being a party of our journey!

ICE ON ICE!

Something we're proud of. Hardpops was the official boozy ice pop of the NHL's Florida Panthers for their 2023 and 2024 seasons. We even snagged a Stanley Cup! Good luck charm? We think so.
